

LONDON HOPES MONEY WILL BE PLENTIFUL

Cheaper Rates Expected From Low Discount Rate.

INCOME TAX CUT A FACTOR

Anticipated Reduction Will Release \$35,000,000 for Business Purposes. Strong Tone in Market.

LONDON, April 12.—The sensitiveness of the market to consols was clearly indicated by the slightness of the outside tremor which was enough to start a downward movement. The chief causes of the latest depression have been the withdrawal of part of the Paris support, which has been invaluable here for many months, and a revival of the discussion of the features of the forthcoming Transvaal loan. The disturbing news from the Balkans has been relatively an unimportant factor in London, which has suffered therefrom only through the effects in leading continental markets.

It is expected that the Transvaal loan for £20,000,000 will be issued immediately after the Chancellor of the Exchequer, Mr. Ritchie, presents his budget to parliament on April 23. The loan will probably be in the form of 3 per cents, issued either at 98½ or 99½. This will be followed probably by a reduction in the Bank of England rate of discount. There is an expectation that toward the end of April the bank will be sufficiently strong to warrant a reduction of its rate from 4 to 3½ per cent. If so, money will certainly be more plentiful and cheaper this summer than it has been for a long time past.

But the paramount factor in the market for investment securities is the expectation that a material reduction in the income tax will be announced by Mr. Ritchie next Thursday. If, as is expected, he will reduce the tax from 15 pence to 12 pence in the pound it will give decided encouragement to the markets. Such a reduction would mean that £7,000,000 would be left to the business and professional community, which at present the taxgatherer seizes. Much of this would certainly find its way into the investment markets.

Business in American railroad shares is largely confined to dealings on New York account, although some continental buying continues. There is, however, a decidedly strong tone here in the American market. Much uncertainty is still felt in regard to the financial situation in the United States, although the enormous decline in values in recent months has been borne by Wall Street and the New York money market much better than at one time was deemed possible.

Foreign government securities have moved irregularly. The principal feature was the weakness of Spanish bonds on French selling, and on the closing of a large account on the Spanish bourse.

A few changes have occurred in industrial apart from the strength of United States Steel corporation stocks, which improved in sympathy with American securities, and also on the publicity of the recent balance sheet, which the newspapers printed in extenso here this week. Business in the Copper market has been subdued, consumers here being apprehensive of the tension in American financial circles. Influential purchasers, however, have imparted a hardening tendency, although a leading European concern is reported to be out of the market at present. The consumption of Great Britain is still slow, although some works are thought to be rather short of material. The outlook for Copper in Germany is encouraging. Business in South African mining market remains very slack.

REPORTS AGAINST

MACADAMIZING STREET

A report submitted by Superintendent of Roads Hacker, relative to restoring a fence on the property of Isaac S. Hildridge, and the improvement of Flint Street, from Fifth Street to the Shepherd Road, was today approved by the District Commissioners. Mr. Hildridge complained that the fence in question was removed in the opening of Flint Street, and was not replaced. He also desired the macadamizing of Flint Street through to the point named.

Mr. Hacker states, in his opinion, the authorities should not restore the fence, especially because the complainant does not indicate in what manner it is to be restored. It could not be placed on the public space as before, and the Commissioners have no authority, he said, to build a fence on private property.

The Superintendent reported adversely upon the proposition to macadamize the street as requested. He said it would involve an expenditure of \$700, with no compensating advantage of the public. He said the street is already macadamized to the west line of Fifth Street, which furnishes an outlet for all necessary travel on Flint Street.

INVITES JUDICIAL TEST OF PARTY WALL STATUTE

A. B. Duval, Corporation Counsel, has forwarded to the District Commissioners an opinion upon the authority of the Board to enforce party wall regulations in Mount Pleasant. The matter came up on a protest filed by E. E. Court against the erection of such a wall. The protest was based upon the allegation that the Commissioners had no authority to enforce such a law beyond Florida Avenue, and other portions of the District outside of Washington city.

Mr. Duval refers to another opinion on the same subject submitted a few days ago. In that opinion, he said, while the authority of the Board to extend the territorial operation of the party wall regulation is by no means clear, still he recommended the enforcement of it, in order to bring a judicial test which would settle the question without additional legislation by Congress.

Mr. Court will be informed in accordance with the opinion of the Corporation Counsel.

"SHARK SYNDICATE" SEEKS CUBA'S GOLD

Capitalists Organize to Kill Man Eaters.

HAVANA, April 12.—All Havana is talking of the novel "get rich quick" scheme inaugurated by John G. Neumeister, of Chicago, a financier and cheese manufacturer, who spent eight weeks in Cuba investigating the island's opportunities.

If developed to its fullest extent it would either bankrupt the city or force the municipal council to repeal what is considered one of the most beneficial ordinances ever adopted. The ordinance was only recently passed. It provides for the payment of bounties for the slaying of sharks. For every female shark killed in Havana waters \$3 is to be paid, for every male \$2.

Mr. Neumeister was here when the ordinance was first published. He began immediately to "work the wires" between Havana and Chicago. He saw boundless possibilities in the shark-killing business. He interested Chicago friends, and in less than a week the Havana-American Shark Syndicate (unlimited) was prepared to begin operations.

The Chicago capitalist confided his plans to a few Havana acquaintances, who told the story. A large quantity of a peculiar high explosive was ordered shipped to Havana at once. At the same time fifty men were put to work capturing and corralling all the stray dogs to be found in the city and country adjacent. These men were given authority to buy dogs if they could not obtain them otherwise. A small farm was rented near the city for the accommodation of the canines.

And why dogs? Dog flesh is the daintiest epicurean morsel that could possibly be served to a hungry shark. Experience has shown that one dead dog affords a radius of shark within a radius of ten miles. Man-eating sharks

are, more correctly, dog-eating sharks. As peaches and cream to the average juvenile, as ripe, red watermelon to the Southern negro, so is floating dog to the well-regulated shark.

Thus Mr. Neumeister and his associates figured, and thus they prepared to execute. They also knew that sharks could communicate with each other with wonderful facility. Given one dead dog in the waters of Havana harbor, the system of communication practiced in sharkdom would soon summon every dog loving shark reachable in the Gulf and the Atlantic.

The syndicate proposed first to feed a few unloaded dogs to the sharks, in order that the news might become generally circulated. A few days of this sort of baiting, then the high explosive was to get in its deadly work. The dogs were to be sent adrift with an explosive cartridge tied to each of them. A hundred or more hungry man eaters would begin a combat for the prize, a man in a boat would press a button, and the cartridge would do the rest.

The supply of dogs in Cuba and the supply of sharks in the ocean being alike inexhaustible; the established fact that four pounds of the explosive attached to one dog would furnish the syndicate with at least a dozen sharks, averaging in municipal bounty \$2.50 each; a "catch" from one boat not consuming more than thirty minutes; one hundred boats in operation, bringing in 2,400 sharks an hour, or \$6,000 bounty every sixty minutes—why, it was a Klondike game that made the cheese industry and the stock market seem a waste of time!

The question that is affording the Havana-American Shark Syndicate the greatest concern is: Which will last longer, the dogs and sharks, or Havana's treasury?

NEWS OF RAILROADS AND OF RAILROAD MEN

New B. & O. Superintendents.

Information has been received in Washington that General Superintendent Thomas Fitzgerald, of the Baltimore and Ohio Railroad, has made a number of important changes in the roster of division superintendents. The announcement was made last night in Wheeling, W. Va., where Superintendent Fitzgerald is looking after the road's interests for a few days. The changes given out are as follows:

J. D. Spurrier, superintendent of the Washington, Metropolitan, and Old Main Line branches, is transferred to the Shenandoah Valley division, vice T. S. Prince, recently resigned because of illness.

Charles Galloway, of the Cumberland division, transferred to the district covering the Washington, Metropolitan, and Old Main Line branches, vice J. D. Spurrier, transferred.

F. D. Husted, in charge of the Grafton, Parkersburg, and Monongah divisions, transferred to Cumberland, vice Charles Galloway.

U. B. Williams, of the Wheeling division, transferred to Grafton, vice Husted, transferred.

F. D. Blaser, in charge of the Ohio River division, transferred to the Wheeling division, vice Williams, transferred to Grafton.

Charles Bryant, superintendent of maintenance of way, Ohio River division, promoted to superintendent of road division.

The changes are effective next Tuesday, and follow out a policy of the general superintendent to place the most capable men in charge of the most important districts. Mr. Spurrier, who is in charge of the Washington division, is one of the best men on the road, and has many friends who will be pleased to know of his promotion. Mr. Galloway, who succeeds him, is known here, and will make a good official.

Wabash's Connecting Link.

Five routes have been surveyed by Wabash engineers for the connecting link between the West Virginia Central and Pittsburgh and the Western Maryland. Two of these are in West Virginia, and it is reported here today that one of these has been definitely decided upon. The route to be used, although President Ramsey, now on his way home from Egypt, has not given his approval. A dispatch to The Times from Cumberland states the route to be chosen crosses the Potomac into Maryland at Sinclairville, W. Va., about 1,500 feet above Wiley's ford, and runs by a straight line through the Walsh addition and the Humboldt addition to South Cumberland. It runs about 340 feet to the north of the fair ground fence and again crosses into

West Virginia a short distance below. The plans call for a tunnel 1,700 feet long through Knobly Mountain, west of Ridgeley. The bridge by which the train will enter Cumberland will be located near the present West Virginia Central bridge and will be constructed to avoid the present curved crossing. A modern terminal depot at the central station will be reached by passenger trains on an elevation.

The Wabash has a whole square under option for the depot. The right-of-way agents for the Wabash have been working in Allegany county east of Cumberland since Monday.

N. & W.'s Car Foundry Purchase.

It is rumored in local railroad circles that the Norfolk and Western Railroad has purchased a large car wheel factory located in Birmingham, Ala., which will be removed to Roanoke, Va., and converted into a car foundry. The cash payment of \$65,000 is said to have been paid on the plant, and the shop will be located in the east yards in Roanoke. Its capacity will afford employment to more than one thousand men. The rumor is denied by General Manager L. E. Johnston, but the officer admits a shipment of five hundred unfinished cars will soon be received in Roanoke from the plant in question and a force of men will be obtained to complete the work upon them. The rumor is made more reasonable from the purchase of a large tract of land in Roanoke upon which a number of large buildings will be erected.

Loree Confers With Baer.

L. F. Loree, president of the Baltimore and Ohio Railroad, has returned to Baltimore from Philadelphia, where he had a conference on Thursday with President Cassatt and other officials of the Pennsylvania Railroad and President Baer, of the Reading Railroad. Mr. Loree will enter the Reading board in June. It was learned that Mr. Loree and Mr. Baer spent some time in revising the traffic arrangements on business exchanged at Cherry Run and Martinsburg. It is understood that D. B. Martin, general manager of passenger traffic of the Baltimore and Ohio, accompanied Mr. Loree to discuss passenger business with Mr. Baer.

Railroad Notes.

The office of General Eastern agent of the Seaboard Air Line has been abolished, and J. C. Horton, Eastern passenger agent, will assume the management of all matters pertaining to the passenger department in New York and territory.

The Pennsylvania Company has expended more than \$300,000 in improving the roadway in Cecil county, Maryland.

COMMERCE COMMISSION

ON TOUR OF INVESTIGATION

The Interstate Commerce Commission will leave on Monday for New York for a hearing of the charges brought against railroad and coal operators by William R. Hunt. The charges allege monopoly in the mining and carrying trade. The commission has summoned a large number of witnesses to appear in the New York Federal Building, on the 21st of April, and an exhaustive investigation will be undertaken.

The investigation of charges brought by the railroad commission of Kentucky against an alleged combination of roads in the South, will soon be finished by the commission. The findings of the commission will then be made public, and probably referred to the Department of Justice for its information.

QUARTERS FOR SUNDAY TEACHERS' COLLEGE

Society of Religious Educators to Consider Matter Today.

A meeting of the executive committee of the American Society of Religious Education will be held at 3:30 o'clock this afternoon at the offices of Dr. J. E. Gilbert, Washington Savings Bank Building, to consider further business left unfinished from the fourteenth annual business meeting held last night in the parlors of the Ebbitt House.

The committee, consisting of the Rev. Thomas C. Easton, D. D., the Rev. C. F. Winbiger, D. D., the Rev. Isaac Clark, D. D., the Rev. Henry Baker, D. D., Prof. R. B. Warder, and Dr. J. E. Gilbert, secretary, will discuss the securing of the building in which to conduct the work of the Sunday Teachers' Normal College, proposed for the ensuing year, and which can be at the service of the society, pastors and Christian people in general.

At the meeting last night Justice John Maynard Harlan, president of the society for the past year, was in the chair. After the annual report of the secretary, Dr. J. E. Gilbert, the following officers were elected for the coming year: Honorary president, Justice John M. Harlan; president, Hon. T. H. Anderson; vice presidents, C. W. Needham, L. L. D., Hon. W. L. Chambers, Isaac Clark, D. D., all of Washington, Bishop Mackay-Smith, of Philadelphia, Louis Klopsch, L. L. D., of New York city; general secretary, the Rev. J. E. Gilbert, D. D.; treasurer, F. A. Stier; auditor, Hon. W. E. Andrews; registrar, Grace D. Woodburn; attorney, Hon. C. J. Faulkner, and the executive committee as named.

Seven regents of the third class, term expiring in 1906, were elected as follows: Dr. E. M. Gellaudet, Henry Baker, D. D.; A. J. Huntington, D. D.; Isaac Clark, D. D.; Hon. W. M. Springer, Rev. Thomas Chalmers Easton, D. D., and Hon. C. J. Faulkner. The fourteen regents holding over are of the class for 1904: Hon. H. B. F. Macfarland, Prof. R. B. Warder, Rev. J. E. Gilbert, D. D.; Hon. W. S. Shallenberger, Judge W. L. Chambers, Bishop A. Mackay-Smith, Rev. George O. Little, D. D., and of the class of 1905, Rev. J. E. Rankin, D. D.; Rev. F. D. Power, D. D.; Judge T. H. Anderson, Hon. W. E. Andrews, C. W. Needham, L. L. D.; Prof. George J. Cummings, and Rev. C. F. Winbiger, D. D.

The board as now constituted consists of twenty-one members, the number allowed in the constitution, representing nine denominations, all residents of Washington, except two.

The work of the society will be in eight departments, each under the supervision of the general secretary, and two others to be appointed by the president, namely, College of Fellows, Religious Library Union, Family Culture Union, Bible College at Home, Sunday Teachers' Normal College, College Bible Union, Sunday School Extension, Lectures and Assemblies.

President Harlan announced those who would assist the secretary in the supervision of the departments: College of fellows, Rev. George O. Little and Prof. R. B. Warder; religious library union, Hon. T. H. Anderson, and Rev. F. D. Power; family culture union, Dr. T. C. Easton, and Hon. W. L. Chambers; Bible college at home, Dr. Louis Klopsch and Prof. L. H. Jones; Sunday teachers' normal college, Hon. H. B. F. Macfarland and Hon. W. S. Shallenberger; college Bible union, Dr. C. W. Needham and Prof. George J. Cummings; Sunday school extension, Hon. W. M. Springer and Hon. C. J. Faulkner; lectures and assemblies, Dr. Winbiger and Dr. Baker.

The regents will meet in October and April to hear reports from departments on the work accomplished. At an attempt will be made to enroll in the city of Washington during the coming year, beginning October 1, 300 students in the Sunday Teachers' Normal College, 200 to be secured from the present corps of teachers and divided into three classes, junior, intermediate, and senior, and 100 from among the most devoted young people not now engaged in teaching.

DEATH OF A CHILD.

Frederick A. Le Roy, six months, was the name and age of the dead child who was erroneously reported as Frederick L. Roy, aged five months, in Monday's issue.

UNION VETERAN UNION SOUNDS WAR SLOGAN

Commander Pettys Charges Administration With Ingratitude and Injustice.

Ingratitude, apathy, and disgraceful injustice on the part of the Government is claimed by an indignant open letter recently sent to the comrades of the Union Veterans' Union, division of the Potomac, by Dr. Charles V. Pettys, commander of the division.

Dr. Pettys asserts in the letter that in spite of thousands of promises "made by prominent Republican politicians in veterans' favor, an analysis of the acts of the last four years of the national Congress does not show an act passed that favors veterans which was not so worded that the result was an injury to a greater number than were benefited by the act. Every bill introduced favorable to veterans was killed in one house or the other. * * * And we find a great majority of those who have worked and voted in favor of the veterans were representatives of the Democratic party."

Aggressive Action Urged.

The letter attempts further to arouse aggressive action on the part of the veterans in opposition to "promises made only to be broken," and exhorts them to "stand by those who stand by them," and to demonstrate by the ballot the potentiality of the Veterans' Union as a political force. The letter charges unfairness on the part of medical authorities of the Pension Bureau in disallowing claims for pensions by veterans disabled in the service of the country. A doctor himself, Dr. Pettys repeats the assertion that there is not

a member of the medical board of the Pension Bureau who could pass a rigid professional examination.

"No Soldier Need Apply."

Dr. Pettys continues: "Now, after forty years, when our ranks have become thinned and our power reduced thereby, we are forgotten and turned from the door with the proverbial remark, 'No soldier need apply,' and I believe the veterans have found out that promises have been made for their ears and broken for their hopes."

"My comrades, do you know that you did more to preserve the Monroe Doctrine than any others have done? Napoleon, to build up an empire on American soil, sent Maximilian to Mexico. After the surrender at Appomattox in 1865 Grant sent Phil Sheridan to the frontier with the best army that ever existed, which shook Maximilian from his tinsel throne that Napoleon had established in 1863. This is a piece of history worth remembering."

"To each and every veteran in this division I make this request: That you go to every Union soldier, sailor, or marine and urge him to repeat to him this request to comrades, to come into the Union Veterans' Union with their sons and grandsons, if they want to benefit themselves and so help us to fight for the veterans who are now left, their widows and orphans, and where they will find a blending of formality with comradeship and patriotism."

BOY'S ADOPTION MAKES HIM BROTHER OF HIS MOTHER

READING, Pa., April 12.—An adoption of a child granted by the Berks court today caused an unusual change in relationship. Judge Endlich made a decree allowing James H. Angstadt to adopt Earl Wesley Helms as his son and heir.

The child's name will be changed to Angstadt. He is a son of Charles and Amanda Helms and his father's whereabouts has been unknown since August, 1901.

The mother joins in the petition for

adoption. Mr. Angstadt, who adopted the child, is the father of Mrs. Helms and the grandfather of the boy he now adopts as his own child.

He thus becomes his father. By the adoption, the child becomes the brother of his mother, and instead of being a cousin to cousins is an uncle to them.

This confusion in relationship will probably cause a meeting of the members of the family to decide whether they will accept the changes or continue in their previous relations to the child.

REAL ESTATE TRANSFERS

M Street northwest, between Fourth and Fifth Streets—Charles D. Cole et ux., to William J. Walters, part original lot 23, square 514, \$10.

P and Mill Streets northwest—Henry J. Davis et al., trustees, to William H. Bell, lot 6, square 1261, \$10.

Columbia Heights—Edwin P. Jones et ux., to Wilson C. Thompson, lot 37, block 35, \$10.

DISAPPEARS AFTER A METEORIC CAREER

L. C. Harding's Banks and Mill Suspend Business.

CHATTANOOGA, Tenn., April 12.—LeRoy C. Harding, who established banks in Port Payne, Collinsville and Attala, Ala., is missing and the institutions have all suspended business.

The DeKalb Flouring Mills and other concerns which Harding established in North Alabama, are also embarrassed. It is learned here that Harding is being sought on a warrant issued at the instance of a grain firm in Louisville, Ky., charging him with obtaining at Port Payne, for the DeKalb Flouring Company, of which he was an officer, a consignment of wheat by fraudulent means.

Harding located at Port Payne about January 1 of this year. He claimed he was from Baltimore, and that he had ample financial resources through the death of an uncle in Montana, who was in the copper mining business. The first thing he did was to organize the People's Bank and Trust Company. This enterprise was followed by the organization of the DeKalb Flour Mills Company. Over a week ago Harding left Port Payne, and nothing definite has been heard of him since.

COL. RANDELL APPOINTED

DIRECTOR OF COLUMBIA

At the request of Gen. John M. Wilson, president of the board of directors of the Columbia Hospital for Women, the District Commissioners have appointed Col. D. M. Randell, sergeant-at-arms of the United States Senate, a member of the board of directors, to fill the vacancy caused by the death of John T. Mitchell.

"I've Lost Ten Pounds"

A man says, "Look at this." And he over-laps his coat to show how loose it is. There are some people who can lose fat to advantage, but the loss of flesh is one of the accepted evidences of failing health. As flesh-making processes begin in the stomach, so naturally when there is loss of flesh we look first to the stomach for the cause. And the cause is generally found to be disease of the stomach and digestive and nutritive tracts, resulting in loss of nutrition and consequent physical weakness.

Doctor Pierce's Golden Medical Discovery restores the lost flesh by curing diseases of the stomach and other organs of digestion and enabling the perfect digestion and assimilation of food from which flesh and strength are made.

"My wife was for five years troubled with indigestion of stomach and bowels, bloating and severe pain at times during the entire five years," writes Mr. J. Milton Unger, of McConnellsburg, Pa. "Her heart was affected, and she took a purgative every few days but only received temporary relief. She got very poor in flesh and I bought one bottle of Dr. Pierce's Golden Medical Discovery from our druggist and after taking it she said she felt like a new woman. She no more trouble with stomach and bowels, and has no pain nor bloating. Has gained fifteen pounds in weight."

Dr. Pierce's Pleasant Pellets cure constipation and biliousness.

YOU CAN'T BE ATTRACTIVE.

An Offensive Breath and Disgusting Discharges, Due to Catarrh, Blight Millions of Lives Yearly. Dr. Agnew's Catarrhal Powder Relieves in 30 Minutes.

Excellent nose and throat specialists in daily practice highly recommend Dr. Agnew's Catarrhal Powder, as sure, permanent, painless, in all cases of Catarrh of the Nose, Throat, Headache, and Catarrh. It gives relief in 10 minutes and banishes the disease like magic. Dr. Agnew's Pills, 40 cents in box. Sold by F. R. Richardson & Co., Pennsylvania Avenue and Third Street northwest.

Tired Out Women

I can truly say that Wine of Cardui is a wonderful medicine for women. I suffered for many years with female trouble in various forms and tried so many different remedies without relief that I got tired and thought I was to be in poor health to the end of my days.

I read so many times about the woman who had been benefited through the use of Wine of Cardui that I determined to try it as a last resort. The first bottle made me feel much better and that all worn-out feeling, so I kept on taking it, grew the better and stronger each week, and at the end of four months I was well and strong, and since then I have been regular and have not had to go to bed each month as heretofore. In fact, I could not wish for better health than I have now. I am happy to testify to the merits of Wine of Cardui for ills of women.

Women should know that a continually worn out feeling and severe periodical headache indicate dangerous trouble and serious weakness. Bearing-down pains, ovarian troubles, irritation and other symptoms of female weakness wear on the nervous system, making sleepless nights and drowsy, fretful days. This wearing on weakened nerves produces the worn-out feeling and nervous headache.

If you get up in the morning feeling all tired out, if you feel nervous and suffer from headache or backache you need Wine of Cardui, that great medicine which cured Mrs. Lewis.

With Wine of Cardui within your grasp to-day, health may be yours. You can soon be a perfectly well woman. Ask your druggist for a \$1.00 bottle to-day.

In cases requiring special directions, address, giving symptoms, "The Ladies' Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

WINE of CARDUI

66 Dubuque Place, Chicago, Ill., Oct. 25, 1902.

Mrs. Lay Lewis
